

Investing in your workforce doesn't have to be complicated. At CT Skills we make it easy to identify the right training opportunities for your team.

With flexible online learning, dedicated tutor support, and recognised qualifications, we can help you develop skills, support staff progression, and meet wider workforce development goals.

Step 1: Understand Your Training Needs

Explore what your organisation and team need.

- Identify skills gaps
- Discuss workforce challenges
- Identify training priorities

Step 2: Explore Your Options

We'll look at the training routes available and what could work for you.

- Eligibility checks
- Funding guidance
- Learner registration

Step 3: Choose the Right Training

We'll help you identify suitable course options for your organisation.

- Personalised recommendations
- Funding and eligibility guidance
- Advice on cost-effective solutions

Step 4: Start Online Learning

Employees can start learning online with tutor support.

- Flexible online study
- Dedicated tutor support
- Learning that fits around work.

Step 5: Ongoing Support

We'll support both employers and learners throughout the course.

- Regular progress reviews
- Employer updates
- Tutor support throughout

Step 6: Achievement & Next Steps

Celebrate success and explore future development opportunities.

- Qualification completion
- Progression opportunities
- Ongoing workforce development recommendations

With **flexible delivery, dedicated support, and recognised qualifications**, CT Skills helps employers develop their workforce through online training that fits around work commitments.

Get in touch with our team to discuss your training needs and find the right learning solution for your organisation.
