I would like to commend Jobwise on their hard work and effort

to ensure that we have the best and most suitable candidates for our vacant roles whenever they arise. I have been impressed with their detailed knowledge of the candidates and of our organisation. Jobwise has taken the time to carry out video interviews on all candidates ensuring they are most likely to be a good fit for us.

They also took the time to visit our office to find out more about our organisation as part of the recruitment process. This is also something that is impressive and shows that the needs of both the candidate and the organisation are being carefully considered.

Executive Director

Highest possible standards

When I have been in need of staff at short notice, Jobwise has always provided their services to the highest possible standards. I have always been honest with Jobwise with regards to my recruitment needs and they have always listened to me and delivered what has been requested.

I would recommend Jobwise to any company with recruitment needs.

Sarah Rowen – Solutions Manager

Jobwise has not let us down once

Having been let down by numerous other agencies, we decided to give Jobwise a chance. I am glad we did, as they have not let us down once and have helped us out at extremely short notice on more than one occasion.

The staff that they provide are very professional, punctual and always fit the role that we require. I know Gemma and the team work really hard to provide us with only the best people, who they know will not let any client down so I would recommend them 100%.

Iain Cunningham – Sales Manager

The only recruiter I use

When I took over my current position, Jobwise were one of a long list of recruiters that the business were using for staff, after halting all use of agencies, I met with everyone to identify a preferred supplier.

Jobwise worked with me during the transitional period and identified themselves as someone I could really work in partnership with. Jobwise often has to react quickly to temp and perm requests and they have never let me down.

They are now the only recruiter I use for outsourcing and are an invaluable asset for me to have as part of my recruitment process. I find it massively reassuring that I can always pick the phone up when needed.
