LSP does not endorse the benefits of operating through an umbrella company or encourage individuals to work via any one particular company on the list above. Individuals can decide whether they wish to be engaged via PAYE with LSP, via one of the umbrella companies listed above or through their own UK registered limited company when working in the UK.

LSP cannot provide advice as to the best operating model so individuals would need to seek independent advice as to the best operating model that matches their situation.

LSP will not be liable for any losses, costs, claims, expenses, penalties or other liabilities incurred as a result of selecting a particular umbrella company to work through.

All the above umbrella companies are accredited and/or registered members of either the Freelance & Contractor Services Association (FCSA) (www.fcsa.org.uk) and/or the Association of Professional Staffing Companies (APSCo) (www.aspco.org).

Please note that neither the FCSA and APSCo are part of LSP and as such LSP does not accept or assume responsibility for any claims, demands, actions, proceedings, damages, losses, loss of profit, costs, expenses or any other consequences, whether direct or indirect, arising from reliance upon any services provided by either entity.

LSP's supplier list is not permanent and LSP reserve the right to amend the list from time to time. If any umbrella company fails to satisfy the required compliance requirements at any time, LSP may require the individual to provide their services through an alternative approved supplier.
