BUSINESS RELATIONSHIP

One Trading originally engaged with Strive due to an urgent need to grow their Engineering team ahead of key product launches, which were key to them obtaining their next funding round.

Strive successfully placed the first hire in only 10 days, quickly followed by several more placements in the following few weeks. Now six months into the partnership, it remains as successful, due to an open and transparent relationship and Strive ensuring a high quality of candidates.

ONE TRADING

PROJECT OVERVIEW

- UX / UI Web Designer
- Senior Java Engineer
- QA Engineer
- Senior Software Engineer x 2
- Software Engineer (Contractor)

" CLIENT FEEDBACK.

Working with Strive has been absolutely pivotal for our tech recruitment needs in the crypto industry. Their expertise in sourcing top talent, particularly for challenging profiles, has been nothing short of exceptional.

From the outset, it was evident that Strive understood the unique demands of our business. They wasted no time in delving deep into our requirements, allowing them to swiftly pre-filter a plethora of candidates. This meticulous approach not only saved us valuable time but also ensured that only the most promising individuals made it to the interview stage.

What truly sets Strive apart is their remarkable ability to deliver results swiftly without compromising on quality. Within 10 days of commencing our search, they successfully placed a key member within our core team. This individual has since become an invaluable asset to our organisation, thanks to Strive's keen eye for talent.

In an industry as competitive and fast-paced as crypto and financial tech, having a recruitment partner like Strive is an absolute game-changer. Their efficiency, dedication, and knack for finding the perfect fit make them our go-to agency for all our hiring needs. We couldn't recommend them highly enough.
