Testimonials

Michael Hall ★★★★★

(Head of Human Resources - Wave Money)

Simon and the MyWorld team bring professionalism and service to recruitment that you just don't see in Myanmar. The candidate quality is high and his consultants follow up diligently and communicate quite well. Simon takes the lead and follows up with care where required as additional support. In a market where there is so much variance of experience level, business skills and language capability, the MyWorld team are a valued partner who have taken time to understand our business therefore providing candidates who generally match our experience requirements and cultural identity. If you need help in identifying local talent and need support in the lengthy candidate screening process, MyWorld are the solution. A true value add partner for my business.

Ng Geok Leng ★★★★★

(Regional HR & Competence Development Manager - Jotun)

MyWorld has been supporting our local office in Myanmar and successfully placed many candidates that fit not only to the skillset that we are looking but also in terms of cultural fit. With the great support and dedication given by the team, immediately, MyWorld is the first choice when I had recruitment needs in Cambodia. Within a week, they managed to find many good candidates who are closely related to what we are looking for. The team understood the scope very well and also closely engaged with both HR and candidates- this made the process to be seamless. Well done, team and thank you again for the great support.

Yuichi Nishi ★★★★★

(Senior Manager - Dai-ichi Life Insurance Asia Pacific)

Highly pleased with MyWorld's service. The results until now has been surprising because our offers (to candidates) seem to be concentrated from MyWorld. Firstly, the overall candidate's level was much more advanced compared to other agencies. We appreciate MyWorld's effort for not only introducing available candidates but also poaching high performing candidates within the market. Secondly, MyWorld's super quick reply has always been amazing. (I would recommend MyWorld) only to other industries because we will like to keep this superb service to ourselves. Our intensive hiring will continue for few more years, and we hope to continue this journey with MyWorld.
