

# SEAN'S SIGNIFY JOURNEY

## How has Signify supported you in your recruitment journey so far?

*Signify IS my recruitment journey so far! I only had a small bit of recruitment experience before Signify, so they have taught me everything I know and have helped me succeed in my career so far.*

## How would you describe the communication and collaboration within the team?

*Generally, a very collaborative group that likes to work amongst themselves to maximize the benefits of our work, in the quickest amount of time*

## Can you share a memorable moment or accomplishment that highlights your experience with the company?

*My biggest highlight and the thing I am most proud of is breaking into the 1M dollar biller club and placing over 100 candidates in just under 3 years.*

## What advice would you give to someone considering a career with our company?

*If you are willing to work hard, you will achieve every and any goal you set for yourself. My only problem was I didn't dream big enough at first! This is definitely not a place to coast or come to make a paycheck, everyone here is dedicated to themselves and striving to be better, so you must come ready to play! That being said, there isn't a single person who won't want to see you succeed, will always give their time to help you, and love to see others go the extra mile, so you will have all the support you need, just need to find and bring your own motivation!*
