

Maximise the Potential of Utilising a Self-Employed CIS Contractor with Payme

At Payme, we specialise in providing top-quality services tailored specifically to CIS contractors within the contractual chain.

With our CIS gross status and extensive experience in the CIS arena, we are well-equipped to meet your needs and exceed your expectations.

Why Choose Payme?

- **Risk Mitigation**
Payme conducts stringent supervision, direction or control (SDC) checks followed by an employment status check (IR35). Only if these are acceptable will we register the contractor to be paid via CIS.
- **Assignment Verification**
Each assignment is assessed for CIS compliance. We consider the type of work, the skill required and sector.
- **Ongoing Compliance**
We call the contractor to ensure the assignment details given match what is actually being completed. Should we have any concern, we will inform the Agency.

Key Features:

1. **Stringent skill set test completed**
2. **Verification with HMRC of CIS status prior to commencing the contract with 30%, 20% or Gross status being applied**
3. **Payments to contractors can be with or without VAT. Payme ensure all VAT registrations are checked before payment**
4. **All tax deduction made at source and payments made direct to HMRC**
5. **Intermediaries report provided to the Agency quarterly for submission to HMRC**

Unlock CIS contractors potential and expand your contractor choices with Payme's dedicated support to stay compliant.

Contact us today to learn more about our services and schedule a meeting.
